Art Unit: 1624

Applicant's amendments and remarks filed 10/9/03 and 9/5/03 have been received and reviewed. Claims 2-8, 16-18, 23, 24 and 29-32 are now pending in this application.

Note that compounds, corresponding compositions, a method of use and a process of making that are of the same scope are considered to form a single inventive concept under PCT Rule 13.1, 37 CFR 1.475(d). The claims are not so linked as to form a single inventive concept. The compounds are so diverse in scope that a prior art anticipating one compound under 35 USC 102 would not render obvious another compound of the same claim under 35 USC 103. Claims 17 and 18 are withdrawn from consideration as being drawn to subject matter of a different scope.

*Claim Rejections - 35 USC § 112*

23!!  
→ Claims 24, 29 and 30 are again rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. These claims are drawn to a method for treating a solid tumor. The specification does not provide enablement for the treatment of solid tumor generally. The basis of this rejection is the same as given in the previous office action and is incorporated herein fully by reference.

Claims 2-8, 16, 24, 31 and 32 are allowed.
